Dear Families,
Dear Families,
Sight words are an important reading strategy for students developing their reading skills. Sight words are words that students begin to recognize at first glance. Mastery of sight words helps students become fluent readers because they do not have to stop and sound out the words.
This year, we will be working on 30 sight word lists. Each list will have 10 words. Students will be working at their own individual pace. Our goal is to pass a list every one to two weeks.
Please help your child practice and review
