

Word of the Day

I created this resource to use in my own classroom after struggling to implement vocabulary every day with my students. I tried different units and lessons, and would always run out of steam after a couple of months. There was just TOO much to do!

But once I found these fun You Tube clips from a popular children's TV show, I knew I had a solution! Each video clip is between 60 seconds to 3 minutes, and teaches the Word of the Day in a fun and engaging way. My first graders LOVE the clips and learn so much!

I introduce one word a day (4 words per week) and we review the words each Friday. This pack includes two different versions of Quick Checks, printables for writing the words in sentences, and a word map to use for each word. I never do it all. It just depends on the time we have. But we always watch the You Tube clips as an introduction and I have word cards displayed in a pocket chart all week for easy reference!
