

Morning Warm Up KINDER - JANUARY

I created these slides in an effort to make my whole class Zoom Meetings run smoother and more efficient during Remote Teaching. It helps keep me on track while also ensuring that ALL of my students are participating! Your students will need either paper/pencil or a whiteboard to complete the daily tasks.

I will also use these if/when we return to the classroom because we will not be allowed to have carpet time. This will really help us transition from Remote Learning to the Classroom and, in the event of another school closure, back to Remote Learning. I hope your students will love it as much as mine do!

What's Included:

Each day/week REPEATS to maintain structure and routine, but there are differences to keep the students engaged!
